The above premises lye well together and with the Lands of Mr Forester that they circumference form a desirable Farm. The Lands in Barrow are titheable and it is intended for the tenant to bear the Taxes except the Landlords property Tax of one shilling in the £.

It is to be observed that this Farm has in general been hard tilled and the Lands are in low condition. The Buildings, Gates. Stiles &c have been much neglected. If the Estate was in good heart and condition I should think it well worth 80 Guineas a year.
